

# Animated windsock for France VFR airports

Designed to patch following France VFR's FS9 airports:

- LFRB Brest
- LFLB Chambéry
- LFQQ Lille
- LFPN Toussus
- LFRS Nantes

This patch replaces original orange FS windsocks with french red & white animated ones.

## **Install**

Copy files:

- \*.bmp files in directory ...\\FS9\\Scenery\\Generic\\texture
- wind\_lib.bgl file in directory ...\\FS9\\Scenery\\Generic\\scenery
- the wind\_LFXX.bgl matching the France VFR's sceneries you own in directory ...\\FS9\\Scenery\\Generic\\scenery

and enjoy.

Scenery for FS2004 not tested with FSX.

Thanks to Jörg Dannenberg, Arno Gerretsen & Jon Patch for the original windsock model.
